

DECISION MAKING STUDY

\$20-30

Caltech Division of Humanities and Social Sciences

Purpose

- We are seeking healthy volunteers for eye tracking studies designed to test theories of how the human brain makes simple economic choices.

What will you be asked to do?

- Come to our lab in Baxter Hall at Caltech for one visit lasting around 60-90 minutes
- Make simple decisions while we monitor your eye movements with an eye tracker

Compensation

- Participants make an average of \$20-30 per hour, with exact payment depending on performance and luck.

Eligibility

- Ages 18-65
- English proficiency
- No glasses (contacts ok)
- Show proof of vaccination for COVID-19 and adhere to current Caltech policies
